PROFILE

Technical Product Specialist with hands-on software and data engineering experience across enterprise product delivery, client implementation, and analytics. Helped carry Delman Data Lab (DDL) through its transition into Indivara, from feature development and data solutions to deployment and client acceptance. Connects product needs with engineering execution across clients, infrastructure, and developers.

10+ APIs

optimized for dashboard reliability and data accuracy

1.7M+

source product records in the Bersama data pipeline

SMBC

DDL native deployment in production, Oct 2026

EXPERIENCE

Technical Product Specialist | Indivara Group

Jan 2026 – Present

- Sustained DDL delivery through Delman's acquisition by Indivara: improved features, resolved frontend/backend issues, supported deployment, and migrated both DDL repositories to Indivara's GitLab organization.
- Coordinated work between Delman and Bersama teams, translating product requirements and internal data issues into technical action with Product, IOC/Infrastructure, developers, and client stakeholders.
- Contributed to Bersama data architecture, product-data cleaning and standardization, SQL transformations, and dashboard/API delivery for a pipeline with 1.7M+ source product records and 6.4M+ analytics output rows.
- Optimized 10+ APIs for the Bersama dashboard and SamaSamaApps Philippines to improve service reliability and the accuracy of dashboard data.
- Contributed to Bersama forecasting work that improved accuracy by up to 50%, translating data requirements into analytics-ready outputs.
- Supported DDL installations and SIT/UAT/acceptance for Avantrade, Goodie, KB Bank, and Seedbox; deployed a Docker-free DDL solution to an SMBC production VM in October 2026.
- Built a Python demonstration script and HTML email template for Seedbox, shaping DDL-triggered notification scenarios with users for UAT and third-party integration discussions.

Software Engineer, Full-time | PT Delman Data Teknologi

Sep 2024 – Dec 2025

- Built and maintained DDL features and resolved frontend/backend issues in client-facing data applications; improved load time by approximately 30% and reduced production bugs by 25%.
- Refined AI chatbot experiences using prompt and context engineering and contributed to product usability, performance, and code quality.

EARLIER EXPERIENCE

Frontend Developer, Part-time Freelance | PT Lumbung Mandiri Bersama

Aug–Dec 2024

- Delivered client-facing React/Next.js and TypeScript features; worked with business stakeholders on requirements and backend integration.

Frontend Engineer, Contract | Delman

May–Aug 2024

- Established frontend architecture for two client projects using Next.js, Chakra UI, React Query, Context API, and Docker; clarified user flows with clients.

Frontend Engineer, Intern | Delman

Oct 2023–Apr 2024

- Maintained Next.js data-cleaning and visualization features; implemented responsive designs and improved client-side performance.

Frontend Engineer, Freelance | JA Software Solution Ltd. (UK)

Jan–Apr 2023

- Contributed to browser-based Web3 products, including frontend implementation and memory optimization.

Frontend Engineer, Freelance | Enoram Inc. (US)

Oct–Dec 2022

- Built and maintained 3+ web products and internal tools using React, Next.js, TypeScript, and Firebase.

Frontend Engineer, Intern | Ninja Van

May–Aug 2022

- Built internal QA applications with Next.js, TypeScript, React Query, Zustand, Axios, and Ant Design after selection through Generasi GIGIH 2.0.

EXPERTISE

Product & delivery: Requirements analysis · Stakeholder coordination · Client implementation · UAT · Troubleshooting

Data & backend: Python · SQL · REST APIs · FastAPI · Flask · PostgreSQL · Data cleaning & standardization

Frontend & platform: TypeScript · React · Next.js · Docker · Linux/VM deployment · GitLab · GitHub

EDUCATION & RECOGNITION

B.Sc. Informatics Engineering — Universitas Nurul Jadid · 2018–2022 · GPA 3.88/4.00 · Cum Laude

React & React Native — Hacktiv8 Indonesia · 2021–2022

Frontend Engineer Path — Generasi GIGIH 2.0, YABB / GoTo Impact Foundation · 2022

Recognition: Bank Indonesia Scholarship recipient · 2020–2022

COMMUNITY & LANGUAGES

Gatherloop / Probolinggo Frontend Community coordinator (Aug 2023–Present); helped grow a 145+ member group and run monthly tech talks.

Languages Indonesian (Native) · English (Elementary)
